

# Developing a participatory approach to the management of fishing activity in UK offshore Marine Protected Areas

**Workshop 3**  
Thursday 13<sup>th</sup> June  
Dragonfly House, 2 Gilders Way  
Norwich, NR3 1UB  
9:00am - 4:00pm

**AIM:** to review the ecological outcomes from the first model management scenarios and share their views on the proposals and identify potential adaptations that they would like considered as second scenarios. The groups will consider what factors may trigger a review of management for the case study site and explore different options for a governance structure.

The workshop will enable collective discussion, with a focus on the regional specific options for adaptive MPA management and enable participants to build some shared understanding of each other's issues and concerns.

Tea, Coffee & lunch will be provided. Please let us know if you have any dietary requirements.

Time	Item	Element
