

Developing a participatory approach to the management of fishing activity in UK Marine Protected Areas

Workshop 4

Thursday 7th November

The Council Chamber, RICS at Parliament Square, 12 Great George Street, London, SW1P 3AD

9:00am - 4:00pm

AIM: The aim of this workshop is to bring back together both regional groups and the advisory group to consider variations in approach or solutions between the regions, seeking to achieve a shared understanding of the main outcomes of the work. We will be circulating some documents ahead of this workshop to facilitate input to discussions.

The workshop will enable collective discussion, with a focus on the final project outcomes, lessons learned and recommendations for adaptive MPA management.

As part of the legacy material for this project we would like to create a short video highlighting everyone's key messages from the project. Interview questions will be circulated to participants ahead of the workshop. The video recording will take place at the venue during the lunch break. Please let us know if you do not want to be involved in the video or filmed in the background.

Tea, Coffee, breakfast & lunch will be provided by Roux catering. Please let us know if you have any dietary requirements.

Time	Item	Element
09:00-10:00	1	Arrivals (continental breakfast, tea & coffee)
10:00-10:10	2	Introduction to the day, housekeeping & guidelines
