

JNCC Report No. 380
**Checklist of mammals
listed in the CITES appendices
and in EC Regulation 338/97**

**7th edition
2005**

compiled by
UNEP-WCMC

The JNCC is the forum through which the three country conservation agencies - the Countryside Council for Wales, English Nature and Scottish Natural Heritage - deliver their statutory responsibilities for Great Britain as a whole, and internationally. These responsibilities contribute to sustaining and enriching biological diversity, enhancing geological features and sustaining natural systems. As well as a source of advice and knowledge for the public, JNCC is the Government's wildlife adviser, providing guidance on the development of policies for, or affecting, nature conservation in Great Britain or internationally.

Prepared under contract from the Joint Nature Conservation Committee by **UNEP-WCMC**. The UNEP World Conservation Monitoring Centre was established in 2000 as the world biodiversity information and assessment centre of the United Nations Environment Programme. The roots of the organisation go back to 1979, when it was founded as the IUCN Conservation Monitoring Centre. In 1988 the World Conservation Monitoring Centre was created jointly by IUCN, WWF International and UNEP. The financial support and guidance of these organisations in the Centre's formative years is gratefully acknowledged.

The designations of geographical entities in this report, and the presentation of the material, do not imply the expression of any opinion whatsoever on the part of JNCC or WCMC concerning the legal status of any country, territory, or area, or of its authorities, or concerning the delimitation of its frontiers or boundaries.

Acknowledgements

This checklist was compiled by UNEP-WCMC under contract with the Joint Nature Conservation Committee.

The volume builds on earlier editions, and the numerous contributors to those editions are acknowledged. UNEP-WCMC staff involved in the production of this volume include Tim Inskipp, Sarah Ferriss, James O'Carroll and Tobias Garstecki. The project was supervised by Gerardo Fragoso.

Vin Fleming, Alison Littlewood and Nichola Burnett of the JNCC CITES Unit are thanked for providing advice and guidance throughout.

Introduction

In April 1991, the Nature Conservancy Council for England (English Nature), Countryside Council for Wales and Scottish Natural Heritage acting together through the Joint Nature Conservation Committee were appointed by the Secretary of State for the Environment as the United Kingdom's Scientific Authority for Animals under the Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES). CITES regulates international trade in wild animals and plants and in products derived from them, to help to ensure their conservation on a global scale.

The intention of this publication is to provide a list of the species and subspecies of mammal included in the CITES Appendices, together with their conservation status category in the *2004 IUCN Red List of threatened species* (IUCN, 2004) and the appropriate Annex in EC Regulation 338/97 (and subsequent updates).

This revised edition incorporates additions and amendments to the CITES appendices up to and including those made at the 13th Conference of the Parties in Thailand in October 2004 (effective from 12 January 2005) and those outlined in CITES Notification 2004/074 and Notification 2005/029. The most recent EC Regulation to amend the Annexes is 1332/2005, effective from 12 August 2005.

For background material on the rationale of the IUCN threat categories, readers are referred to IUCN (2004); for background on the workings of CITES, recommended works are Favre (1989) and Wijnstekers (2003). For information on the implementation of CITES in the EU, see European Commission (2005). For information by country on the diversity and status of mammals and other taxonomic groups, and for a general review of biodiversity, readers are referred to Groombridge and Jenkins (2002).

In a publication of this nature, it is inevitable that users will discover entries that need correcting or updating. The publishers and UNEP-WCMC would be grateful to receive details of those entries so that the necessary changes can be made in the database from which this document is produced.

The database is continually updated and the downloaded version of this document may contain more recent information than the original printed publication.

Explanatory notes

Each species is typically represented by a block of text including scientific name (with alternatives), common names in the three official CITES languages (where available), geographic range, CITES Appendix, EC Regulation 338/97 Annex, and Red List category. Where a species has component populations or formal subspecies which are treated differently by CITES, the species entry is subdivided appropriately.

Scientific names

For each taxon, the scientific name is given first (as listed in the CITES appendices), with the most frequently used synonyms listed beneath the scientific name.

The nomenclature of genera and species of mammals follows Wilson and Reeder (1993), except where the CITES Appendices differ (as noted below).

The taxonomic scope and sequence of orders and families in this checklist follow the system adopted in the Appendices to CITES. The Appendices are based on the classification of mammals proposed by Simpson (1945).

The Appendices differ from Simpson (1945) at ordinal and familial level as given below:

The order Marsupialia is split into three orders:

Dasyuromorphia
Peramelomorpha
Diprotodontia

The following families have been separated:

Dasyuromorphia:
Thylacinidae from Dasyuridae
Diprotodontia:
Burramyidae from Phalangeridae
Potoroidae from Macropodidae
Primates:
Cheirogaleidae and Megaladapidae from Lemuridae
Galagonidae from Loridae
Hylobatidae from Pongidae
Cetacea:
Neobalaenidae from Balaenidae

Carnivora:
Herpestidae from Viverridae
Artiodactyla:
Moschidae from Cervidae

The following families have been renamed:

Diprotodontia:
Phascolomidae now Vombatidae

Cetacea:
Rhachianectidae now Eschrichtidae

The following families/genera have been included within another family:

Primates:
Callimico in Callitrichidae not Cebidae
Pongidae in Hominidae

Carnivora:
Ailuropoda and *Ailurus* in Ursidae not Procyonidae

Xenarthra:
Choleopus in Megalonychidae not Bradypodidae

The nomenclature of genera and species generally follows Wilson and Reeder (1993).

However, the following species, mainly ones described since that publication, have been adopted for inclusion in the Appendices by the CITES Parties:

Avahi unicolor Thalmann & Geissmann, 2000
Balaenoptera bonaerensis Burmeister, 1867 (see Rice, 1998)
Callicebus bernhardi van Roosmalen, van Roosmalen & Mittermeier, 2000
Callicebus coimbrai Kobayashi & Langguth, 1999
Callicebus stephennashi van Roosmalen, van Roosmalen & Mittermeier, 2002
Callithrix acariensis van Roosmalen, van Roosmalen, Mittermeier & Rylands, 2000
Callithrix humilis van Roosmalen, van Roosmalen, Mittermeier & da Fonseca, 1998
Callithrix manicorensis van Roosmalen, van Roosmalen, Mittermeier & Rylands, 2000
Callithrix marcai Alperin, 1993
Callithrix mauesi Mittermeier, Schwarz & Ayres, 1992
Callithrix nigriceps Ferrari & Lopes, 1992
Callithrix saterei Silva & Noronha, 1996
Cheirogaleus minusculus Groves, 2000

Cheirogaleus ravus Groves, 2000
Galagoides rondoensis Honess & Bearder, 1997
Galagoides udzungwensis Honess & Bearder, 1997
Mesoplodon perrini Dalebout, Mead, Baker, Baker & van Helden, 2002
Mesoplodon traversii (Gray, 1874) (see van Helden *et al.*, 2002)
Miopithecus ogouensis Kingdon, 1997
Microcebus berthae Rasoloarison, Goodman & Ganzhorn, 2000
Microcebus ravelobensis Zimmerman, Cepok, Rakotoarison, Zietemann & Radespiel, 1998
Microcebus sambiranensis Rasoloarison, Goodman & Ganzhorn, 2000
Microcebus tavaratra Rasoloarison, Goodman & Ganzhorn, 2000
Pseudopotto martini Schwartz, 1996
Pteropus banakrisi Richards & Hall, 2002
Tursiops aduncus Ehrenberg, 1832 (see Wang *et al.*, 1999)
Zaglossus attenboroughi Flannery & Groves, 1998

In addition, the following are cases where an animal has been named twice, based on the domestic form and the wild form. CITES has decided to adopt the name of the wild form in each case so that trade in the domestic form is excluded from the provisions of the Convention. Accordingly, domestic forms are not listed in this checklist.

Equus africanus is recognised as distinct from *E. asinus*
Equus przewalskii is recognised as distinct from *E. caballus*
Bos frontalis is recognised as distinct from *B. gaurus*
Bos grunniens is recognised as distinct from *B. mutus*
Bubalus bubalis is recognised as distinct from *B. arnee*
Ovis ophion is included as *O. orientalis ophion* rather than *O. aries ophion*

Alternative names used in Honacki *et al.* (1982) and Corbet and Hill (1991) are also included as synonyms.

Common names

Common names (in English, French and Spanish where available) appear on the line immediately following the scientific name and synonyms.

The English common names used are taken from Wilson and Cole (2000), Corbet and Hill (1991), from the *IUCN Red Data Book* series and from a number of standard reference works for the mammals of particular regions. Secondary English common names have been included wherever this was considered useful, including non-English names commonly used by English speakers. For the Cetacea, the common names used in Watson (1981), have also been included.

Spanish and French names have been taken from the CITES Identification Manual Series and other sources.

Other information

The three columns headed CITES, EC Reg. and RL list the following information for each taxon.

CITES

I, II or III in this column refers to the appendix in which the taxon is listed under the Convention on International Trade in Endangered Species of Wild Fauna and Flora. NC = non-CITES

The two-letter abbreviations following Appendix III entries denote the countries whose governments have placed the taxon in this appendix, as follows:

BW	Botswana
CA	Canada
CR	Costa Rica
GH	Ghana
GT	Guatemala
HN	Honduras
IN	India
NP	Nepal
TN	Tunisia
UY	Uruguay

EC Reg.

The letters in this column refer to the Annex of EC Regulation 338/97 in which the taxon is listed. NR = non Regulation

RL

Threat categories follow those given in the *2004 IUCN Red List* and are as follows:

EX	Extinct
EW	Extinct in the Wild
CR	Critically Endangered
EN	Endangered
VU	Vulnerable
LR	Lower Risk
LR/cd	Lower Risk/Conservation dependent
LR/nt	Lower Risk/Near threatened
LR/lc	Lower Risk/Least concern
DD	Data Deficient
NE	Not Evaluated

Note that the current Red List includes assessments using both the 1994 and the 2001 Categories and Criteria.

Geographical Range

The geographical range of each taxon is generally given in terms of political units arranged alphabetically. Small island dependencies are also listed alphabetically.

Place-names and names of countries follow the *Times Atlas* (2003) and United Nations Cartographic Section (2004).

It should be noted that, when a species is listed as occurring within a given area or range state, it may not occur throughout that country or area, and may be confined to only one or a few localities. This is particularly true for migratory species.

Without surveying the range of each taxon in the field, it is necessary to rely on published records. Many taxonomic works give the range of a taxon in terms of broad geographical areas, rather than of political units. While some countries have a relatively well-known and well-reported mammalian fauna, some others do not do so. These factors may occasionally have resulted in some of the geographical ranges given here being incomplete or inaccurate, although every effort has been made to prevent this.

For Cetacea, geographical ranges are also expressed in terms of oceans, seas, and rivers where the taxon is known to occur or to have occurred. Published sources may not distinguish live and dead cetacean records, but all records have been included. Most cetaceans are widespread but coasts of some countries within their overall range may be avoided for physical, chemical or ecological reasons. Only confirmed sightings are included and taxa may occur in political units other than those named within their overall range.

Distribution notes

A question mark '?' preceding a geographical range has been used to indicate that there is some uncertainty in the occurrence of the species in that range.

A country where the species is known to be extinct is denoted by '(ex)', or by '(ex?)' where there is still a small possibility that the species survives, or

where recent searches have been unsuccessful.

Range states where the species has been introduced are denoted by '[int]'. Range states where the species has been re-introduced are denoted by '[re-int]'.

References

The numbers in the right-hand column refer to entries in the reference list at the end of this document. Many of these are general works relevant to more than one geographical range or concerned with particular groups of species. Single country faunas and more specific references have generally been inserted in brackets after the appropriate country in the listings for geographical range.

Dependent territories

In the text, parent countries of island groups or dependent territories are omitted. These are listed below:

American Samoa, USA	Heard and Macdonald Islands, Australia
Anguilla, United Kingdom	Marshall Islands, USA
Aruba, Netherlands	Martinique, France
Azores, Portugal	Mayotte, France
Bermuda, United Kingdom	Montserrat, United Kingdom
Bouvet Island, Norway	Netherlands Antilles, Netherlands
British Indian Ocean Territory, United Kingdom	New Caledonia, France
British Virgin Islands, United Kingdom	Niue, New Zealand
Cayman Islands, United Kingdom	Norfolk Island, Australia
Christmas Island, Australia	Northern Marianas, USA
Cocos (Keeling) Islands, Australia	Pitcairn Islands, United Kingdom
Cook Islands, New Zealand	Puerto Rico, USA
Falkland Islands, United Kingdom	Réunion, France
Faeroe Islands, Denmark	Saint Helena, United Kingdom (including its dependencies of Ascension and Tristan da Cunha)
Federated States of Micronesia, USA	Saint Pierre and Miquelon, France
French Guiana, France	Svalbard and Jan Mayen Islands, Norway
French Polynesia, France	Tokelau, New Zealand
French Southern and Antarctic Territories, France	Turks and Caicos Islands, United Kingdom
Gibraltar, United Kingdom	Virgin Islands of the United States, USA
Greenland, Denmark	Wallis and Futuna, France
Guadeloupe, France	
Guam, USA

Sphiggurus mexicanus (Kerr, 1792) III HN C LR/lc 2041, 12258
Synonym: *Coendou mexicanus* (Kerr, 1792)
E: Mexican Hairy Dwarf Porcupine, Mexican Tree Porcupine, F: Porc-épic préhensile
Belize [12264]; Costa Rica [1962]; El Salvador [1662, 1962]; Guatemala [1923, 1962]; Honduras [1962, 2260]; Mexico [1962, 2498, 25462]; Nicaragua [1962]; Panama [1819]

Sphiggurus spinosus (F. Cuvier, 1823) III UY C LR/lc 1670
Synonyms: *Sphiggurus paraguayensis* Oken, 1816, *Coendou paraguayensis* Oken, 1816, *Coendou spinosus* (F. Cuvier, 1823)

E: Orange-spined Hairy Dwarf Porcupine, Paraguay Hairy Dwarf Porcupine, Spiny Tree Porcupine,
F: Coendou épineux, S: Coendu espinoso
Argentina [2509]; Brazil [8366]; Paraguay [2509]; Uruguay [2509]

Family: AGOUTIDAE

Agouti paca (Linnaeus, 1766) III HN C LR/lc 2041
Synonym: *Cuniculus paca* Linnaeus, 1766
E: Paca, Spotted Paca, F: Agouti, Paca, S: Paca
Argentina [2509]; Misiones [2509]; Belize [1962, 12264]; Bolivia [2834, 5116]; Brazil [8366]; Colombia [12245];
Costa Rica [1962]; Cuba (int); ?Ecuador; El Salvador [1662, 1962]; French Guiana; Guatemala [1923]; Guyana
[1819, 12242]; Honduras [1962, 2260]; Mexico [1962, 2498, 12258, 25462]; Nicaragua; Panama [1819, 1962];
Paraguay [2509]; Peru [8378, 12267]; Suriname [1819]; Trinidad and Tobago [1474, 1819]; Uruguay [7203];
Venezuela [1819, 5115]

Family: DASYPROCTIDAE

Dasyprocta punctata Gray, 1842 III HN C LR/lc 2041
Synonym: *Dasyprocta variegata* Goldman, 1913
E: Central American Agouti, F: Agouti ponctué, S: Agoutí rojizo, Agutí de América Central
Argentina [2257, 2509]; Belize [1962, 12264]; Bolivia [2834]; Brazil [8366]; Cayman Islands (int); Colombia [1819,
12245]; Costa Rica [1962]; Cuba (int) [1962]; Ecuador [1819]; El Salvador [1662, 1962]; ?French Guiana;
Guatemala [1923, 1962]; ?Guyana; Honduras [1962]; Mexico [1962, 2498, 12258, 25462]; Nicaragua [1962];
Panama [1819, 1962]; Paraguay [2509]; Peru [8378, 12267]; ?Suriname; Venezuela [1819]

Family: CHINCHILLIDAE

Chinchilla brevicaudata Waterhouse, 1848 I A CR 2720
E: Short-tailed Chinchilla, F: Chinchilla à queue courte, S: Chinchilla de cola corta
Argentina [1601, 2257, 2258, 2509]; Bolivia [2834, 5116]; Chile [1912, 2312, 2509]; Peru (ex?) [2435, 8378]
CITES Identification Manual Reference: A-110.023.001.001

Chinchilla lanigera (Molina, 1782) I A VU 1912, 2312, 2509, 2720
E: Long-tailed Chinchilla, F: Chinchilla à longue queue, S: Chinchilla costina, Chinchilla de cola larga
?Argentina [1601]; Chile [2509]
CITES Identification Manual Reference: A-110.023.001.002

Order: CETACEA

Family: PLATANISTIDAE

Inia geoffrensis (de Blainville, 1817) II A VU 1496, 1670, 2162, 2321,
2774, 10373
Synonym: *Inia boliviensis* d'Orbigny, 1834
E: Amazon River Dolphin, Boto, Boutu, F: Dauphin de l'Amazone, Inia, S: Bufo
Bolivia [2834, 5116]; Brazil [8366]; Colombia [1819, 12245]; ?Ecuador; Guyana [12242]; Peru [8378]; Venezuela
[1819, 5115]
(River Amazon; River Orinoco)
CITES Identification Manual Reference: A-111.001.001.001

Lipotes vexillifer Miller, 1918 I A CR 1496, 1967, 2162, 2321,
2774, 2839, 3760
E: Baiji, Changjiang Dolphin, Chinese Lake Dolphin, White Flag Dolphin, Whitefin Dolphin, Yangtze River
Dolphin, F: Baiji, Dauphin fluvial de Chine, S: Baiji, Delfin de China
China
(River Yangtze)
CITES Identification Manual Reference: A-111.001.002.001

Platanista gangetica (Roxburgh, 1801) I A EN 1496, 2060, 2162, 2321,
2333, 2774
Synonym: *Platanista gangetica gangetica* (Roxburgh, 1801)
E: Ganges River Dolphin, Ganges Susu, F: Plataniste du Gange, Sousou, S: Delfin del Ganges
Bangladesh [6508]; Bangladesh [2142, 2143, 2144, 2574]; India [1498]; Nepal [2324, 2455, 2624]
(River Brahmaputra; River Ganges)

CITES Identification Manual Reference: A-111.001.003.001

Platanista minor Owen, 1853 I A 1496, 1610, 2162, 2774, 3760
 Synonyms: *Platanista gangetica minor* Owen, 1853, *Platanista indi* Blyth, 1859
 E: Indus Dolphin, Indus River Dolphin, Susu, F: Plataniste de l'Indus, S: Delfín del Indo ?India; Pakistan [6536]
 (River Indus)

CITES Identification Manual Reference: A-111.001.003.002

Pontoporia blainvillei (Gervais & d'Orbigny, 1844) II A DD 1496, 1670, 2162, 2321, 2774
 E: Franciscana, La Plata River Dolphin, F: Dauphin de la Plata, S: Delfín de la Plata, Tonina
 Argentina [1601, 2509]; Brazil [7919, 8366]; Uruguay [2509]
 (Atlantic - southwest; La Plata estuary and adjacent rivers)

CITES Identification Manual Reference: A-111.001.004.001

Family: ZIPHIIDAE

Berardius arnuxii Duvernoy, 1851 I A LR/cd 1496, 1670, 2162, 2443, 2774
 E: Arnoux's Beaked Whale, Southern Four-toothed Whale, F: Bérardien d'Arnoux, S: Ballena de pico de Arnoux
 Antarctica; Argentina [1601, 2509]; Australia; Brazil [7001, 8366]; Chile [2509]; Falkland Islands (Malvinas) [2509]; New Zealand; South Africa [1583, 2620, 25440]
 (Atlantic - Antarctic, southeast, southwest; Indian Ocean - Antarctic, eastern central, western central; Pacific - Antarctic, southeast, southwest)

CITES Identification Manual Reference: A-111.005.001.001

Berardius bairdii Stejneger, 1883 I A LR/cd 1496, 2162, 2443, 2774
 E: Baird's Beaked Whale, Giant Bottle-nosed Whale, Northern Four-toothed Whale, F: Bérardien de Baird, S: Ballena de pico de Baird
 Canada [1962]; Democratic People's Republic of Korea [2817]; Japan [1829]; Korea, Republic of [2817]; Mexico [12258]; Russian Federation [2321, 2774]; United States [1962]
 (Pacific - eastern central, northeast, northwest)

CITES Identification Manual Reference: A-111.005.001.002

Hyperoodon ampullatus (Forster, 1770) I A LR/cd 1496, 2162, 2443, 2774, 3760
 Synonym: *Hyperoodon rostratus* P. L. S. Müller, 1776
 E: Bottlehead, Northern Bottlenose Whale, F: Hyperoodon boréal, S: Ballena hocico de botella del norte
 Belgium [8755]; Canada [1962]; Denmark [8755]; Estonia [1575]; Faroe Islands; France [8755]; Germany [8755]; Greenland [1829]; Iceland; Ireland [8755]; Latvia [1575]; Lithuania [1575]; Morocco; Netherlands [8755]; Norway [1829]; Poland; Portugal: Portugal, Azores [7632]; Russian Federation [1575]; Svalbard and Jan Mayen Islands [1829]; Sweden; United Kingdom [8755]; United States [1962]
 (Atlantic - northeast, northwest)

CITES Identification Manual Reference: A-111.005.002.001

Hyperoodon planifrons Flower, 1882 I A LR/cd 1496, 1670, 2162, 2285, 2443, 2774
 E: Southern Bottlenose Whale, F: Hyperoodon austral, S: Ballena hocico de botella del sur
 Argentina [1583, 1601, 2509]; Australia; Brazil [8366]; Chile [2509]; Falkland Islands (Malvinas) [25480]; Mexico [12258]; Namibia [25463]; New Zealand; South Africa [2620]; Sri Lanka [1956]; Uruguay [2509, 8815]
 (Atlantic - Antarctic, southeast, southwest; Indian Ocean - Antarctic, eastern, western; Pacific - Antarctic, southeast, southwest)

CITES Identification Manual Reference: A-111.005.002.002

Indopacetus pacificus (Longman, 1926) II A DD 2162, 2285, 2443, 2774
 Synonym: *Mesoplodon pacificus* Longman, 1926
 E: Indo-pacific Beaked Whale, Longman's Beaked Whale, F: Mesoplodon de Longman, S: Ballena de pico de Longman
 Australia; Kenya [10416]; Maldives [10416]; Somalia; South Africa [10416, 25440]
 CITES Identification Manual Reference: A-111.005.003.001

- Mesoplodon bidens*** (Sowerby, 1804) II A DD 2162, 2443, 2774
 E: Sowerby's Beaked Whale, F: Mesoplodon de Sowerby, S: Ballena de pico de Sowerby
 Belgium [8755]; Canada [1962]; Denmark [8755]; France [8755]; Germany [8755]; Ireland [8755]; Italy [1829]; Mauritania [25453]; Netherlands [8755]; Norway [1829]; Poland; Portugal: Portugal, Azores [7632]; Sweden [1829]; United Kingdom [8755]; United States [1962]
