Hello everybody, welcome to the trial TEAMS site for the benthic imagery analysis communications for people who attended the BIG PICTURE or those interested in this work. This is a trial site for us to use (and abuse!) to see if the platform is suitable for rolling out over a wider group. Fingers crossed it does what we need!

THE BIG PICTURE

Benthic Imagery Analysis Workshop 2019

Hi Teams The Wider Picture, now that a few of us on on this site I'd like you to try and upload a file to the site to check you can do that. All you need to do is click the 'Files' tab up top, then 'Upload' and then choose your file - why not pick your favourite study using benthic imagery and upload it. I'll put mine up too!

Henk van Rein 12/06/2019 08:24
