# 1 Background

This update was produced on 20 April 2023.

It has been carried out in line with the process agreed by the Habitats Regulations and International Sites Management Group in September 2021.

This update covers three sites within the UK's National Site Network.

- Amendments have been made to three existing SACs.
- Changes have been made to the associated Standard Data Forms, including updating links to site management plans.
- The SAC and SPA site summary spreadsheet has also been updated.

## 2 Summary of the updated sites

The sites included in the update are listed in the tables below.

### 2.1 Amended sites (Scotland)

Site code	Site name	Country
